

BCCD

Rugged, Portable, Triple-LCD Display

A rugged, portable, triple LCD display system that is typically mounted on top of the FlexPAC III or Seahawk 100

The BCCD is a rugged portable display system built using heavy duty metal to provide tough, go-anywhere unit ideally suitable for wide ranges of applications such as Computer-Aided Design and geographic information system and professional digital media applications. Built in a unique, innovative form factor, the BCCD is a suitable display solution for simulation, training and many other applications.

Every BCCD comes equipped with three 1920 x 1080 HD resolution LCD displays, and DVI input. It's independent triple DVI inputs are fully compatible with most high performance graphic cards. The BCCD LCD display can be expanded and retracted fully for transporting and storage. The BCCD with its extra-rugged construction to sustain bumps and its rich features is the most durable and efficient portable solution for your needs.

BCCD

Designed for portability

Rear independent DVI or VGA inputs

Rubber corners for added ruggedness

Product Versions	BCCD S3	BCCD
